

## 13R - SHERIFF-CORONER REPLACEMENT & MAINTENANCE

### Operational Summary

#### Description:

The Sheriff-Coroner Replacement & Maintenance Fund 13R was established in FY 03/04 to provide the ability to systematically replace key equipment, and provide major upgrades/maintenance of Mobile Data Computers (MDC) and the Orange County Automated Teletype System (OCATS) - Mainframe/Switcher Fee replacement or upgrade. The MDC program receives ongoing revenue for annual charges to Contract partners for replacement portion of reoccurring MDC charges. In addition, the equivalent amount of prior year revenue billings was transferred to the fund when it was established.

During FY 05/06, through the strategic planning of the Department's future operational needs, other replacement and maintenance projects were identified as key priorities to be included in this fund. These programs consist of (1) SHARP payroll system upgrade, (2) Helicopter replacement and major maintenance, (3) Department network upgrade and (4) inmate transportation bus replacement. The revenue source that will be utilized to offset these major projects is Prop 172.

Two additional replacement and maintenance projects were included in the FY 06/07 Budget, which includes video surveillance system and technology improvements. These items will also be funded through Prop 172.

(MDC) System replacement and Orange County Automated Teletype System (OCATS) replacement and upgrade costs. The FY 06/07 budget is higher than FY 05/06 year-end projections due to additional funding for major projects included during the 3rd Quarter Budget Report that will be expended after FY 05/06, as well as additional funding was budgeted in FY 06/07 for two more projects, which results in available funding for future years.
